THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON 7, ALBERTA

## GENERAL FACULTIES COUNCIL

General Faculties Council Minutes are provided through JOHN NICOL, Secretary to the Council.

The following matters were considered by the Council at its meeting on June 29, 1970.

*Supplemental Examinations.* At the meeting of General Faculties Council on May 25, 1970, the Majority and Minority Reports submitted by the *ad hoc* Committee on Supplemental Examinations were considered. The Majority Report recommended the abolition of supplementals and the Minority Report recommended their retention. The motion "that all supplementals be abolished" was amended "except in those professional schools and faculties where satisfactory completion of one year's work is required completely within the faculty." An amendment to the amendment was carried "that the question of supplementals be left to the discretion of the faculty concerned." The motion as amended was then tabled.

At the June meeting of the Council it was agreed that the Majority and Minority Reports, together with a submission in favor of the motion from R. G. BALDWIN, Chairman of the Department of English, be referred to all faculties and schools and that their comments be placed before General Faculties Council for its consideration.

*Report of the Committee on Housing and Food Services on Michener Park Priorities.* Members of the Council considered the Report on Michener Park Priorities which made the following recommendations:

1. That accommodation in Michener Park normally be restricted to a maximum of three years' continuous residence.
2. That priorities for admission to Michener Park be established on the following basis:
  - a. No distinction on the basis of graduate or undergraduate status,
  - b. Married couples with children and childless couples where both partners are going to University would have equal priority,
  - c. One third of the units (say 14 duplex apartments, 20 maisonettes and 66 row houses) would be reserved for applicants from outside Alberta. Of these 100 units approximately two thirds would be reserved for applicants outside Canada and the United States,
  - d. Childless couples as defined in (b) would be restricted to Vanier House, and if there were insufficient numbers in that category

to fill these units, couples with children would be admitted to fill up the vacancies,

e. Within the above guidelines, admission be based on the chronological order of receipt of applications,

f. Should applicants from outside Alberta not be accommodated immediately, they would be eligible to remain on the list for those units reserved for that group for one year after their arrival in Alberta. They would also be eligible to apply for one of the unreserved units on their arrival. (In other words, such applicants could be on two lists for a period of one year.)

3. That accommodation be restricted to married couples whose gross family income (to which must be added any remission of fees) is less than \$7,500 per year. Applicants will be required to complete a formal declaration of income, and residents will also be required to make such a declaration annually.

4. That implementation of the new priorities schedule be made immediately. Present residence would not be affected, except that their continued residence would be restricted to a maximum of three years from August 1, 1970.

The Report was approved with the following amendments:

1. That a term of four years be substituted for the three years' provision in Recommendation 1.

2. That any family living in Michener Park below the total income of \$5,500 be given absolute priority notwithstanding the maximum period of continuous residence.

*Bachelor of Medical Science (BMedSc) Degree.* General Faculties Council approved a recommendation of the Executive Committee of General Faculties Council that a Bachelor of Medical Science Degree be awarded by the Faculty of Medicine.

*Evening Credit Program.* General Faculties Council approved the following recommendations of the Summer Session and Evening Credit Program Committee but with the addition of a proviso to Recommendation 1:

1. That commencing in the 1971-72 session, on-campus late afternoon and evening credit courses be integrated into the general operation of The University of Alberta so that such courses would become the responsibility of the faculties and schools and *subject to the provision of adequate financing by the Board of Governors.*

2. That The University of Alberta continue to accept responsibility for off-campus Evening Credit Program (a) directly, and (b) by being willing to offer jointly with Junior Colleges courses which are beyond the affiliation agreements.

## DEAN OF LAW APPOINTED

GERALD H. L. FRIDMAN, Professor of Law, has been appointed Dean of Law as of July 1. He succeeds GERALD V. LAFOREST, who resigned to become senior adviser on constitutional law to the Prime Minister.

Professor Fridman studied law at St. John's College, Oxford, and received a Bachelor of Arts in the Honour School of Jurisprudence in 1948, Bachelor of Civil Law in 1949, and Master of Arts in 1952. He also holds a Master of Laws degree from the University of Adelaide, South Australia. He is a Barrister-at-Law, called to the Bar in the Middle Temple.

From 1953 to 1956 Professor Fridman lectured in law at the University of Adelaide. In 1956-57 he lectured at University College, London. The following year he joined the Faculty of Law at the University of Sheffield, where he remained until his appointment to the Faculty of Law here last year. At Sheffield, in addition to serving on a variety of major committees, Professor Fridman was Sub-Dean of Law for three years and Legal Adviser to the Committee for Community Relations with Sheffield Corporation.

## CONDOMINIUM PLANNED TO NEEDS OF ACADEMIC STAFF

Western Realty Projects Ltd. proposes to erect a high rise condominium apartment building on Saskatchewan Drive at 100 Street. The project is planned to include one, two, and three bedroom units. They expect that its location will make it of interest to University staff members.

The design is not yet final, pending the results of market studies now being conducted. Anticipated completion is for late summer, 1971.

The developers intend that the needs of the occupants should have first priority in determining the design of the structure. With this in mind, a direct mail survey of academic staff will be conducted during the week of July 13 to 17. Western Realty Projects

has asked for the co-operation of the academic staff in returning the questionnaire enclosed in the direct mail survey so that the project may be designed in accordance with their needs.

## COMMITTEE ON CONFERENCE FUNDS

The Committee to Administer Conference Funds expended a total of \$45,000 during the twelve months ending March 31, 1970. This sum provided full or partial support, generally ranging from \$100 to the working maximum of \$3,000, for twenty-two conferences held during the fiscal year. The Committee is now considering requests for funds during 1970-71. Any staff members who may be involved in arranging conferences are advised to present their requests as soon as possible. Further information may be obtained from P. F. ADAMS, Department of Civil Engineering 432-4115.

## PEOPLE

■ M. A. ROUSELL, Comptroller, was elected President for 1970-71 of the Canadian Association of University Business Officers at its annual meeting held at Memorial University, St. John's, Newfoundland, on June 10. The Association is comprised of business officers of all Canadian universities.

■ BRIAN J. SPROULE, Associate Professor, Department of Medicine, has been named chairman of the Canadian Medical Association-Canadian Anaesthetist Society combined Advisory Committee to the Canadian Society of Inhalation Therapy Technicians. (Continued on page four.)

*Like predators locked in a death grip, like dancers conscious of beauty in every movement, like street chums affectionately rolling in the dust—yet always like highly competitive athletes—these are the participants in the World Amateur Wrestling Championships. They came last week from over forty countries, speaking almost as many languages. Certain things speak all tongues—like coaches religiously attending their athletes, participants and spectators groaning in frustration, and finally, the victory smile.*  
(Photographs by Forrest Bard)

In August, Dr. Sproule will present a paper on the "Distribution of Perfusion following Bronchodilators" and also be a panelist on a Symposium on Exercise Rehabilitation in Chronic Lung Disease at the International Congress on Diseases of the Chest in Lausanne, Switzerland.

■ J. A. JACOBS, Killam Memorial Professor, is a joint co-ordinator for the new journal *Comments on Earth Sciences: Geophysics*, with PETER J. SMITH of The Open University, Buckinghamshire, England. The objective of the journal is to present a cross-communication of ideas between the various branches of geophysics and closely related sciences. The bi-monthly journal is being published by Gordon and Breach, Science Publishers, London.

■ During the Canadian Psychological Association's annual meeting in Winnipeg, J. P. DAS organized and chaired a symposium on Attention in the Mentally Retarded. Two of the five participants in the symposium were GERARD M. KYSELA and A. C. BOWER from the Department of Educational Psychology and the Centre for the Study of Mental Retardation.

■ GERALDINE FARMER, Professor of Secondary Education, was a guest speaker at the recent Canadian Vocational Association Conference held in St. John's, Newfoundland. Her topic was "New Directions in Business Education."

## VISITORS

JOHN E. WALSH, Mobile Endowed Professor of Statistics, Southern Methodist University, and Past President of the Operations Research Society of America, visited the Department of Mathematics on July 16, 1970. An informal meeting was held with faculty members, and some of Professor Walsh's recent research was discussed.

## NOTICES

### NEW MEDIA EXHIBITION

The Edmonton Art Gallery will open an exhibition "New Media: New Methods" on July 13. The exhibition will explore the use of new materials and new methods of working with existing materials. Work in synthetics, use of industrial processes, electrical effects, and natural materials and forces will be displayed, by artists such as DON JUDD, SOL LE WITT, ROY LICHTENSTEIN, BILLY APPLE, and others.

The Art Gallery will also feature several summer courses: art workshop for teachers—August 17 to 20, given by MILTON HALFARSON, and short summer courses—August 3 to 27, for children, teens, and adults. Courses include: childrens art (grades 1-6), general art (grades 7-12), basic drawing and sketching

(teens and adults), studio painting (teens and adults), printmaking (teens and adults), film-making (teens and adults), and ceramics.

Additional information is available from the Edmonton Art Gallery.

### PAEDIATRICS DEPARTMENT FILM

Dr. Elizabeth Turner from Melbourne, Australia will be visiting the Department of Paediatrics on July 23 and 24. She will be showing a film entitled, "The Birth of the Red Kangaroo" in Room 2-115, Clinical Sciences Building, at 10 a.m. on Thursday, July 23.
